THE COL. ELLSWORTH COLLECTION

MIDDLE DATES

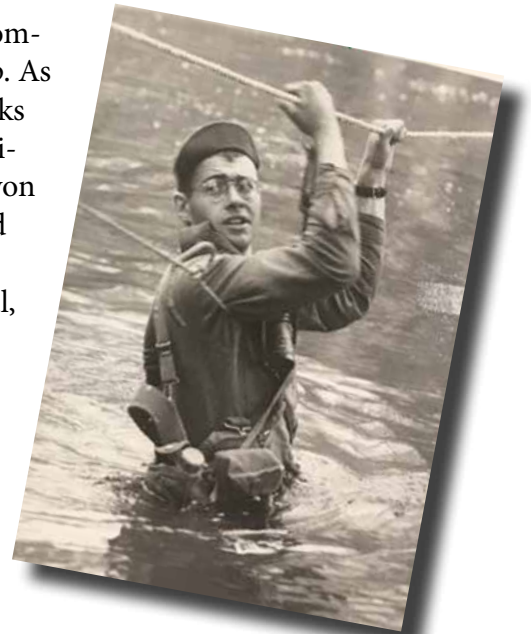

The list of all Steve Ellsworth's endeavors and accomplishments is too extensive to list here. One of note caught my eye. In 1965 Steve served as a "parachute rigger." I have a brother-in-law who was a paratrooper, so I have a bit of information from him. Let me explain how that one line in Steve's resume is earned. First, you are selected for training as a paratrooper and pass jump training school. The best graduate of jump training might be invited to be a "rigger". (First, I should point out that the pretty pastel colored air foils you see floating over the field at the Super Bowl are not the parachutes the army used in 1965.) The army's candidate then spent several months on the ground and in the classroom learning to properly rig a parachute. The class is basically pass/fail. They strap the chute you packed to your back and have you jump out of a plane at 5000 feet. If the chute opens and you reach the ground safely, you pass the class.

Steve's next assignment was commanding officer of operation detachment 19th Special Forces Group. As a Green Beret and Army Ranger, Steve rose quickly through the ranks achieving the rank of Colonel. In 1994 he was assigned as Chief Military Liaison to the newly formed Republic of Slovenia (which had won its independ-

ence from Yugoslavia in 1992) and its 400 mile border with Croatia. Slovenia and Croatia are beautiful, stable, and popular tourist destinations today; more so than they were in 1992-1995.

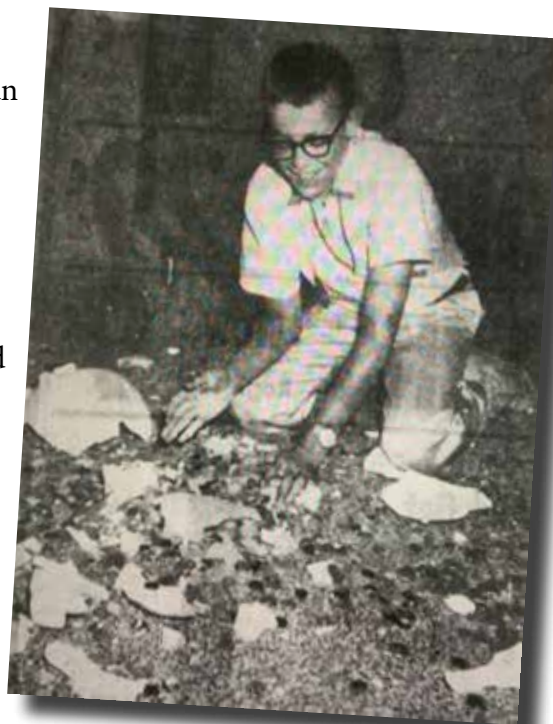

Steve completed his formal military service serving as Deputy Chief of Operations to the Chief of Army Reserves, 1995-1997. He remains a life member of the National War College.

Most of you reading this know Steve from his active role in Numismatics both as a collector and dealer and as

a security specialist and long time contributor to the Redbook. Most recently you may know him as a president of the American Numismatic Association, 2019- 2021. Steve's pursuit of numismatic excellence began much earlier. The July 23 1958 issue of the Salt Lake City Tribune recounts the story of a young man who brought a 40 pound piggy, or in this case, a hog bank into the Valley State Bank. Among the piles of half dollars, quarters, dimes, and nickels, an 1873 Indian head cent. Could this be the coin that launched a thousand trips? (To banks, coin shops, and convention shows).

Steve has been an avid sportsman throughout his life. A competitive skier, Steve started Mountaineer Sports while still in high school opening three retail stores in his teens. A business that soon expanded to 7 retail stores. It would seem inevitable that his entrepreneurial spirit would lead him to professional numismatics. He has been the principal of the Butternut Company since 1994.

In 1964 Steve graduated from East High School in Salt Lake City. The first of a dozen civilian and military degrees. He completed an undefeated 139 pound senior wrestling season by becoming state champion, undefeated and unscored upon, in the state tournament. The year before a double overtime and a referee's decision had put him in the consolation bracket where it took three more hard matches and wins to finish third overall.

As I was writing this, my youngest son glanced over my shoulder. "Undefeated. That means never having lost, right?"

"Well, yes," I said, "it sure means lots of winning. But it also means having never quit, still competing, not done yet."

We are honored and proud to present the Middle Date Large Cent Collection of Steven K. Ellsworth. One of the very few collections of business strike large cents 1816-1839 ever completed by Newcomb die variety.

Steve is not only a great American, he is one of the all time great American numismatic personalities. An important and accomplished collector. At this year's Central State and EAC conventions, Steve and Walt Husak had a competition. An exhibit of their respective collections in a virtual whist match "copper showdown" format. I didn't see the 1873 Indian head cent. But I did see two AU58 1794 S-24 Apple Cheek Large Cents. Two beautiful mint state 1795 Cents. Two superb 1798 S-167s, one with a little more original mint red than the other.

Come Friday night second of September. These beautiful Middle Date Cents will find new homes with new appreciative collectors.

But Col. Steve is still collecting. Still improving his collection of Early Cents. No telling what goal will be accomplished.

Just know. He's not done yet.

VERY ATTRACTIVE 1816 N-1

EARLY CENTS AUCTIONS

LOT 1

1816 N-1 R4 PCGS graded AU53, CAC Approved. Glossy medium brown and light chocolate. Smooth and attractive, just lightly worn. Only a few minor contact marks including a thin horizontal nick in the field right of star 3, a couple more in the field off the chin, and a few more over the N in ONE. Otherwise choice. MDS with rim cuds on the obverse and a faint die crack through the top of NITED. A very nice example of this tough die variety. Graded VF35 and CC#6 in the Noyes census, his photo #26624. **Our grade is VF35.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. Certificate #36523.53/44240174

Ex Joe Levine-George Ramont 8/19/1971-Jules Reiver, Heritage Auctions 1/25/2006:19671-Colonel Ellsworth Collection

LOT 2

1816 N-2 R1 PCGS graded MS64 Brown, CAC Approved. Lustrous mint red fading to light steel brown with at least 20% of the mint red remaining. The only notable marks are a couple ticks under the eye and a splash of darker toning on the N in CENT. M-LDS with cud breaks on the obverse including a small one between stars 11 & 12. An attractive Randall Hoard example of the variety, great for a date or type set. **Our grade is MS62+, close to MS63.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. LOT 3

1816 N-3 R4 PCGS graded AU58, CAC Approved. Frosty light chocolate brown with lighter steel brown covering the protected areas. Nicely struck and very attractive with just a hint of friction on the highest points of the devices. Just a few small marks including a splash of darker toning in the field at the nose and a couple tiny specks of raised greenish verdigris on the wreath ribbon. MDS with rim cud breaks on the obverse and fine radial die flowlines in the fields on both sides. Graded AU55 in by Noyes and tied for CC#3, his photo #27849. **Our grade is AU55** as well. LOT 4

1816 N-4 R2 PCGS graded MS64 Brown, CAC Approved. Lustrous light olive brown and bluish steel with generous traces of mellowed mint red visible on both sides. The toning is a bit mottled on the obverse but the surfaces are satiny and the eye appeal is excellent. The best identifying mark is a tiny tick off the upper left point of star 6, and it is barely visible. M-LDS. The dash between the C and A in AMERICA is weak but still visible. The dentils over the second A in AMERICA are weakly struck. Graded MS60 and tied for CC#5 in the Noyes census, his photo #28654. LOT 5
PCGS

1816 N-5 R3 PCGS graded MS63 Brown. Frosty golden tan with hints of light bluish steel overtone. May have been dipped long ago but it is lustrous and it passed muster at PCGS. There is some obvious planchet chipping under the first 1 in the date, and this catches your eye. Otherwise the only notable marks are a thin nick over star 9 and a spot of dark toning at F-A. MDS with lightly flowlined fields. The repunching under the left base of the N in CENT is clear. **Our grade is MS60 net AU55.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. EARLY CENTS AUCTIONS

LOT 7 1816 N-7 R3 PCGS graded MS63 Brown, CAC Approved. Beautiful lustrous light olive and medium brown with traces of faded mint red showing in protected areas. No spots or stains and the surfaces are satiny. The only marks are a light scratch under star 11 and a dull nick on the right bottom of the E in CENT. Neither mark catches your eye and the eye appeal of this cent is excellent. MDS. The fields are flowlined but at least half of the dentils are still visible. **Our grade is MS60+.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. WRIGHT PLATE COIN

LOT 9

1816 N-9 R3 PCGS UNC Details Cleaned. Sharpness close to mint state but lightly cleaned and nicely retoned frosty medium steel brown with lighter steel brown in protected areas. There is a puff of darker steel toning in the field between stars 2 & 3 and a swipe of darker olive brown toning at the bottom of the reverse. No notable contact marks and the eye appeal of this cent is quite nice in spite of the old cleaning. LDS. The repunching on the 18 is gone. **Our grade is net AU50.** This is the plate coin for the variety in John Wright's book on the cents of 1816-1839, and it comes with a very nice provenance. LOT 17

1817 N-7 R3 (with Mouse) PCGS graded MS62 Brown. Frosty medium steel brown and light chocolate with peeps of lighter steel brown faded down from mint color in some of the protected areas, particularly around MERICA. The toning on the obverse is faintly mottled between the lighter and darker tones. Satiny mint luster covers the fields and protected areas and this cent has excellent eye appeal. The only mark is a very light vertical scratch in the field above star 2, and you wouldn't notice it if it did not lighten the toning. LDS with all the die cracks and rim cuds mentioned by Wright in his reference on the cents of 1816-1839. The "Mouse Break" resting on top of the head below star 8 is strong. FINEST KNOWN 1822 N-14 RARITY

LOT 80

1822 N-14 R6+ PCGS graded VF25. Attractive glossy olive brown and steel with lighter olive brown and chocolate toning on the devices. The planchet is smooth but there are light contact marks scattered over both sides. The notable marks are a light scratch in the field close before the brow, a vertical nick at the top of the E in CENT, and a nick close under the diagonal of the N in ONE. This is the discovery coin for the variety (1984) and since then 13 more have been found, most of those in grades of Good or lower. The variety is easily identified as the only 1822 with the legend very close to the wreath, especially ME in AMERICA to the leaf below. This reverse was first used to strike the 1821 N-1 die variety and appears here in a later die state with a die crack across the lower reverse from the I in UNITED to the C in AMERICA. Apparently only a few were struck from this die pair before the 1821 reverse die was replaced and the 1822 N-8 strikes began. The obverse die has smooth, very slightly reflective fields and sharp dentils; a new die in its first use. Arguably you could postulate this was probably the first variety struck using the 1822 date. This is the plate coin for the variety in the Noyes and Wright references on the cents of 1816-1839. Graded VF20 net F12 and CC#1 in the Noyes census, his photo #25486. **Our grade is F12.** A highlight of this outstanding collection. 1823 Restrike PCGS graded MS64 Brown, CAC Approved. Glossy medium brown and light olive. No spots or stains, only faint hairlines in the fields. LDS with small lumps from die rust and two strong die cracks on each side. These 1823 "Cents" were struck outside the mint using discarded mint dies sold as scrap. The obverse die used was the normal Newcomb-2 variety of 1823, but apparently a reverse die of the type used in 1823 was not available and they substituted a reverse die used for the 1813 Sheldon-293 variety. The result was an, "1823 cent" that looked nothing like the genuine mint product. 1826 N-1 WITH "PHANTOM LEAF"

LOT 99

1826 N-1 R2 PCGS graded AU58, CAC Approved. Very attractive frosty light to medium brown. Satiny mint luster shows in the fields and protected areas and this cent has great eye appeal. Sharply struck with full radial lines in all the stars. There are a few light contact marks including two horizontal nicks under the eye and a short, light scratch right of the lower nick. EDS, the earliest seen. The remnants of the errant star right of the date are sharp and there is a phantom leaf outlined under ME in AMERICA (the phantom leaf is a feature not mentioned in the Newcomb or Wright references). In addition there is a bold double profile along the back of the portrait, from the top of the hair bun down to the lowest curl, plus minor strike doubling on the nostril and chin. An interesting strike in a neat die state. Our grade is AU50+, close to AU55. The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. LOT 137 1829 N-7 R3 PCGS graded MS62 Brown. Glossy chocolate and darker steel brown with frosty faded mint red remaining in the protected areas. There is a long, thin nick on the neck and a smaller nick in the field close before the lips, plus another small one in the field close over the inner hair bun. Nicely struck MDS clearly showing 4 of the "Wheelspoke" die cracks on the reverse. These radial die cracks are located through the R in AMERICA, right of the D in UNITED, up through the loop of the wreath ribbon, and through the first A in AMERICA. The strike is exceptional for the variety with the entire portrait and wreath fully impressed. In the lower half of the condition census, and better struck than most of the nice ones. CONDITION CENSUS 1835 N-8

LOT 187 1835 N-8 R1 Head of 1836 PCGS graded MS64 Red & Brown, CAC Approved. Glossy light olive and steel brown with at least 10% of the bright mint red remaining on the obverse and more than a third of the original red showing on the reverse. The only notable marks are a small spot of reddish brown toning on the front edge of the neck, a faint streak of darker toning slanting down into the field from the coronet, and a speck of dark toning under the left side of the O in OF. This cent has great eye appeal. MDS with a strong die crack up from the dentils through the 1 in the date along the bust and neck to the back of the ear, then weakly up through the head to the bottom point of star 8 where it fades away. Called MS64 by Bland. **Our grade is MS63.** A very nice cent that is clearly in the condition census. The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. IMPORTANT 1837 N-15

LOT 219 1837 N-15 R3 Plain Hair Cord PCGS graded MS63 Brown. Glossy light to medium brown blending to steel brown on the reverse where generous traces of mellowed mint red remain visible. The fields are lustrous and this cent has very nice eye appeal. Looks mint state, and it has been graded at that level by many large cent experts, but there is a hint of rub on the very highest points of the devices. Only trivial marks including a faint streak of reddish brown toning from star 6 arcing into the field before the face, a speck of darker toning in the field under the end of the chin, a very faint horizontal hairline over star 1, and a few very tiny pinpricks under the I in AMERICA. M-LDS with die cracks on both sides, some quite strong on the reverse, plus narrow rim cud on the obverse, but the area over AME has not started to sink. Graded MS60 by Del Bland and tied for finest known in his census. **Our grade is AU58.** A very important example of this tough variety. Comes with a nice provenance. LOT 224 1838 N-3 R1 NGC graded MS66 Red & Brown, CAC Approved. Lustrous bluish steel and light olive fading down from mint color with at least 20% of the red remaining. Nearly flawless, only a few microscopic defects from perfect. These include a tiny planchet flake on the nostril (as struck), a few extremely tiny ticks on the cheek, and a very small nick between stars 12 & 13. M-LDS. The dies are heavily worn and lapped but the small dot directly above the normal center dot on the reverse is still weakly visible (called the "Colon Center Dot Variety" by John D. Wright in "The Cent Book"). The dentils from under the date to star 1 are "smeared" as always on this variety and several of the stars behind the portrait are missing their radial lines, but everything else is nicely struck. In the later die states this variety becomes increasingly difficult to attribute, and NGC incorrectly called it N-1 on their label. **Our grade is MS64.** This piece is superior to any of the examples in the legendary Naftzger collection (our sale with the Goldbergs 2/1/2009) or those included in the Noyes photo census for the N-3 variety. LOT 245 1839 N-9 R2 Silly Head PCGS graded MS64 Brown. Lustrous reddish olive brown and steel. Satiny and very attractive. The only notable mark is a speck of carbon at the dentils below the end of the wreath ribbon. M-LDS with numerous die cracks and rim cuds on the obverse, but the die lines off the left top of star 7 are still visible. A very attractive example of the "Silly Head" type. **Our grade is MS62.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. Certificate #37234.64/04407682

Acquired from an unrecorded source at the 2019 ANA Convention 3/30/2019-Colonel Ellsworth Collection

LOT 246 1839 N-10 R3 Booby Head PCGS graded AU58, CAC Approved. Glossy medium brown delicately woodgrained with slightly darker brown on the obverse. There is a patch of darker brown toning at the dentils between stars 3 & 4, and the only notable contact mark is a dull but rather obvious nick on the truncation over the 3. MDS. An attractive example of this tough variety. Graded MS60 net AU55 and tied for CC#5 in the Noyes census, his photo #22792. **Our grade is net AU50+.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. Certificate #403843.58/28453804

EARLY CENTS AUCTIONS

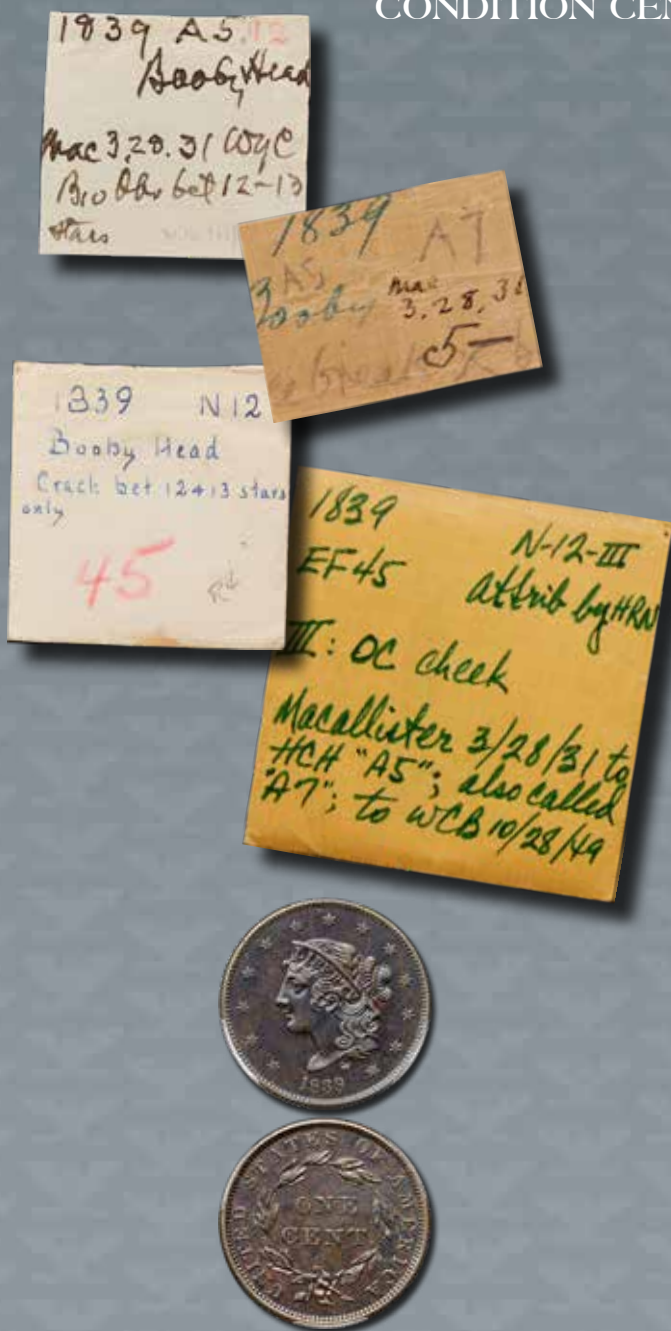

LOT 247 1839 N-11 R1 Booby Head PCGS graded MS62 Brown. Frosty medium brown and chocolate. Mint luster covers the fields and this cent has very nice eye appeal. The only notable mark is a diagonal nick off the tip of the coronet and another above star 1. Otherwise free of notable marks. Looks mint state but there is a trace of rub on the highest points of the devices. MDS. The fields are lightly flowlined. The earlier fine die lines around ONE CENT and the tiny rust lumps on the reverse are all gone. **Our grade is AU58.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. CONDITION CENSUS 1839 N-12 RARITY

LOT 248 1839 N-12 R4 Booby Head PCGS graded AU58. Glossy dark olive and steel mixed with medium brown, especially on the reverse. The surfaces look perfectly smooth but a glass reveals traces of extremely fine microscopic roughness hidden under the glossy toning. No verdigris, and the only marks are trivial ticks here and there. The only notable mark is a thin diagonal nick in the field at the bust tip. MDS with a strong die crack from the dentils through star 4 to the nose fading out at it reaches the curl behind the neck. Called EF40 and CC#4 in the Noyes census, his photo #20848. Bland says EF45 and CC#4. Our grade is EF40. A solid condition census example of this rare variety, and it comes with a great provenance. The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. Certificate #37249.58/13092000

LOT 249 1839 N-13 R2 Booby Head PCGS graded MS65 Red & Brown, CAC Approved. Lustrous light chocolate brown and olive with 20-25% of the mint red remaining on both sides. Satiny mint frost covers this cent and the eye appeal is outstanding. Nearly void of defects. A tiny planchet void on the rim just right of the date and a tiny diagonal nick or planchet flake over the right top of the E in CENT are the best identifying marks, but neither is at all significant. M-LDS with die cracks on the reverse, including a fine one through ES in STATES to the dentils over the left side of the adjacent O. A very nice Booby Head cent. Graded MS65 and CC#3 in the Bland census. Noyes says MS63 and tied for CC#3 (no Noyes photo # available). **Our grade is MS63.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. LOT 250 1839 N-14 R3 Booby Head PCGS graded MS62 Brown. Frosty light steel brown woodgrained with darker chocolate brown on the obverse. Hints of very faded mint color show in protected areas on the reverse. The surfaces are lustrous and the only marks are some microscopic planchet chips from star 2 through the lips to over the E in LIBERTY and some more at stars 3-5 (all as struck). LDS with a cracked reverse. The bar from the dentils over the R in AMERICA is gone. **Our grade is AU58.** The attribution and COL Ellsworth Collection provenance are noted on the PCGS Gold Shield label. LOT 251 1839 N-15 R5+ Booby Head PCGS graded MS62 Brown, CAC Approved. Glossy light chocolate brown with frosty lighter golden brown in the protected areas where satiny mint luster remains. Only a few microscopic marks, including a faint horizontal hairline in the field over star 1 and a small spot of reddish chocolate toning low on the neck. Just a touch of friction on the highest points from mint state. EDS, the only die state known for the variety. Called MS60- and CC#1 by 15 points in the Bland census. Noyes says AU55 and finest known by a full 20 points, his photo #28830. **Our grade is AU55.** Clearly this piece is the undisputed finest known example of the rarest variety of the year. TERMS OF SALE

- The auctioneer reserves the right to refuse to honor any bid which, at his sole discretion, he feels is not in good faith. The auctioneer may withdraw any lot, without prior notice, for any reason whatsoever.
- The highest bidder acknowledged by the auctioneer shall be the buyer. In case of dispute the auctioneer may at his sole discretion reopen a lot. In all cases the auctioneer's decision shall be final and binding on bidders.
- All sales are payable in U.S. funds immediately upon receipt of invoice unless other arrangements have been made prior to the sale. Lots delivered in state of sale are subject to all applicable state and local taxes unless appropriate permits are on file with us.
- Postage will be added to the invoice of all successful bidders wishing for their lots to be shipped.
- A 20% Buyers Fee will be added to all invoices. Additional 4% charge for Paypal payments (24%).
- Please keep in mind this is not an approval sale. All sales are considered final. Sales to the floor may not be returned for any reason save authenticity. Sales to mail bidders are final unless lot proves to have been misdescribed.
- Lots will be available for viewing by appointment.
- Mail or phone bids will be accepted up through the day of the sale. All bids will be reduced. Lots will open at one bid increment above the second highest bidder mail bidder. Bidding will proceed as competition dictates with the lot either selling to the floor or to the mail bidder at one increment above the second highest bid.
- The consignor may bid or place a reserve bid on their own lots. Any lots repurchased by a consignor will be announced as a pass. Principals of the auction firm may consign or may bid on coins in the sale.
